DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, drawn to a method for modifying one or more data characteristics or physical characteristics of nodes within a network diagram, classified in class 345, subclass 853.
- II. Claims 15-18, drawn to a method for generating a network diagram with nodes at different magnification levels, classified in class 345, subclass 859.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has a separate utility for magnifying specific portions of a network structure. As a result, the details of such magnified portions are more discernible to the user. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and because the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2173

A telephone call was made to the Applicants' Attorney, Steven P. Wigmore, on March 26, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that for the reply to this requirement to be complete, it must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143)

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blaine Basom whose telephone number is (703) 305-7694. The examiner can normally be reached on Monday through Friday, from 8:30 am to 5:30 pm.
